

KITZ VALVE & ACTUATION (THAILAND) CO., LTD.

Corporate Social Responsibility in 2021

On 6th November 2021, KITZ VALVE & ACTUATION (THAILAND) CO., LTD. (KVT) was successfully done CSR event at Bangpu Nature Education Center, Samutprakarn.

It's help employees to realize the environmental morale and KITZ sustainability commitment and slogan. (* NOTE1)

And prevent waste especially plastic flowing back into the sea, well as keeping the local landscape clean and beautiful, with the community.

For KVT's 2nd CSR event, we had chosen the following 3 activities.

1. Donation :

As garbage drifts from the sea to mangrove coast everyday and their staff need to collect it. So we donated supplies and equipment (garbage bag and gloves) to them. To keeping the coast, local landscape clean and beautiful.

2. Collect Waste at Mangrove Coast :

Nowadays, garbage drifts from the sea to mangrove coast too much including plastics that do not biodegrade, harming both these ecosystems and the species living there, our CSR activity collect waste at mangrove coast to prevent waste especially plastic flowing back into the sea, well as keeping the local landscape clean and beautiful, with the community. After finish activity, we had gathered 107 kilograms of rubbish. Divided into foam 15 kilograms, glass bottles 25 kilograms and plastic bottles 67 kilograms.

3. Learning Nature in Mangrove forest :

This activities learned lesson about bird watching and mangrove forest conservation how they can help protect mangrove forests and how plastic waste in the ocean affects the environment, coastal ecosystems and communities by Mr. Nivech - Government officer of Bangpu Nature Education Center. Then, enjoy the atmosphere, feel the sea breeze together with feeding thousands of seagulls that migrate from Russia and Mongolia to Bang Pu during October to February at Sukta pier.

We wish to create a sustainable society where all people on earth can live their lives with peace of mind. To create the ideal society, we believe companies must achieve sustainable growth while working to solve social issues and protect the global environment through business activities.

Working toward realizing a sustainable society, the KITZ Group takes a sincere approach toward the earth and its inhabitants and will raise both its corporate and social value.

=====
